Background:

Background: The voters approved \$15,000 at town meeting for sidewalk improvements. The Select Board is searching for an approach that maximizes the use of the funds through matching grant programs. Doug Morton, from NVDA, is very skilled in this state space and has volunteered to assist the Board.

The Board and Doug completed a short walk around on the existing sidewalks discussion options that could be followed for improvements. It was agreed that Doug would create a map of all the sidewalks in town for the Board to review. Doug also agreed to work with the VAOT to obtain the latest cost estimates for construction of sidewalks using a variety of design criteria. The Board agreed to establish a project priority at the next Board meeting. Doug will then package up a grant request to be submitted to the State for review and potential approval.
